COVER LETTER

May 29th 2026

Hiring Manager

Dear Hiring Manager:

I am currently working at Abichandani Law Firm as a Back Office Executive and have nearly one year of professional experience. In this role, I handle both independent and team-based tasks, which has helped me develop strong communication, coordination, problem-solving, and organizational skills. Working in a professional environment has strengthened my ability to manage responsibilities efficiently and meet deadlines.

I know that my strong communication, problem-solving, and time-management abilities, which I have been developing throughout my education and previous work experience, make me a valuable candidate for the position of **Web Developer**. I am excited to pursue new opportunities to expand my skill set and further contribute to the growth of your organization.

I believe I have the strengths and skills necessary to be successful in this role. I look forward to discussing these further with you during an interview.

Sincerely,

KANISHA BHELOSE
